

WESTWOOD

WESTWOOD is an outdoor sauna with attitude, inspired by the humble charm of a classic garden shed.

Simple in form WESTWOOD can be clad in a diverse range of materials from rough sawn cedar, galvanised steel to mirror hammered sheet-metal.

Inside you'll discover the pure pleasure of relaxing in the fragrance of cedar as you're enveloped by heat.

Designed for flexibility, WESTWOOD is quick to build off site and easily tailored to suit your space. From adjusting dimensions to selecting materials that reflect your surroundings, each build can be made distinctly your own, whether nestled into a garden corner or forming part of a larger outdoor retreat.

Starting from £30,000 (including VAT)
6 weeks lead time

Select materials that reflect your surroundings

The only limit is your imagination
